**VIDEO 1:** We discuss an overview of the next 10 days, then dive into specific materials and tools we will be using.

**VIDEO 2:** We cut out the pattern pieces, leather, stiffeners, lining, & interfacing.

**VIDEO 3:** We begin bag assembly; stiffeners are glued to leather, and strap/strap connector pieces will be constructed.

**VIDEO 4:** We start sewing! Exterior construction will be completed, and you'll learn how to edge coat & edge paint.

**VIDEO 5:** The lining will be constructed; this includes slip & zipper pockets, key fob, closure, and upper lining.

**VIDEO 6:** Final assembly! We will glue the exterior to the lining, sew it in place, and close the lining of the bag. The handle & hardware will be added, and the finishing touch will be the knotted strap/handle connectors.
